

Organic Wine D.O. Ribera del Jucar

Our wine has been produced under the strictest organic production laws. This wine is a "coupage" of Tempranillo, Cabernet, Syrah, Merlot and Bobal grapes from our own vineyards. Red Raspberry colour with purple touches, clean, shiny and good density. It brings to memory black fruit with shades of minerals and coffee. On initial tasting it is energetic with discreet fruity flavours turning into a noble and gentle wine with a long satisfying result.

"La Morenilla" Wine Cellar

"La Morenilla" is a small family business situated in the Ribera del Jucar, south of the Province of Cuenca. Our organic wine is produced combining the traditional and most modern techniques under the organic laws. We have a production of around 400.000 litres of wine of which 60% are Tempranillo and the rest is divided among the varieties Merlot, Syrah, Cabernet Sauvignon and Bobal. The average age of our vineyard is 20 years. The typical soil of our region, Ribera del Jucar, gives our vines the special touch that distinguishes us from other Spanish regions.
